The International College of Dentists (ICD) is the oldest international honorary dental organisation in the world. Fellowship in the College is extended by invitation only and is granted in recognition of a dentist’s “outstanding professional achievement, meritorious service and dedication to the continued progress of dentistry for the benefit of humankind”.

Mission Statement: The International College of Dentists is a leading honorary dental organization dedicated to the recognition of outstanding professional achievement and meritorious service and the continued progress of the profession of dentistry for the benefit of all humankind.

Motto: Recognizing Service as well as the Opportunity to Serve.

Objectives:
1. To provide a universal forum for the cultivation of cordial relations within the profession
2. To foster the growth and diffusion of dental knowledge.
3. To recognize distinguished service to the profession and to the public worldwide.
4. To promote post-graduate study and research in the field of oral health.
5. To contribute to the advancement of the profession of dentistry internationally.
6. To encourage and support projects of a humanitarian nature.
7. To uphold the highest standard of professional competence and personal ethics.
8. To assist in preserving the highest public perception of the profession.
9. To perpetuate the history of the profession and maintain its dignity and stature.
ICD Founders: Dr Louise Ottofy of the USA and Dr Tsurukichi Okumura of Japan
Conceived: November 1920
Established: 31 December 1927

Original Objectives (excerpt from first Constitution, 1927):
1. To foster cordial relations among dentists in all parts of the world.
2. For cooperation among dentists in the interest of progress in the science and art of dentistry; especially with dentists who are located in less frequented parts of the world.
3. To aid in education of all peoples concerning the importance of dentistry as a health measure.
4. To assemble and publish data pertaining to dentistry in all parts of the world.

The International College of Dentists was incorporated on 9 July 1928. Membership was to be limited to 300 dentists representing "the ablest, most progressive, best educated, ethical practitioners" in each country in the world. The quota of Fellows for Australia was 6; for New Zealand 2; for the Fiji Islands 1 and for the "South Sea Islands" 1.

In 1930:
Membership of the College stood at 266 representing 174 countries.
The first convocation for new Fellows was held on July 22 in Denver, Colorado.
The first Section of the College (the USA Section) was formed.

MILESTONES FOR SECTION VIII (AUSTRALASIAN SECTION)
Initially the International College of Dentists operated as one body, the "College at Large". When Sections were formed within the College (substantially in effect from 1948), "Section 29" was designated to include Australia, New Zealand, the Samoa Islands, the Fiji Islands, Borneo, Sumatra, Java, Papua, the Solomon Islands, New Caledonia, the Society Islands and the Celebes.

INAUGURATION OF SECTION 8, AUSTRALIA
Autonomy was authorized for "Section VIII, Australia" at the Executive Council meeting held on 12 October 1963. Section 8 was officially inaugurated on 30 May 1964 by the College representative, Dr R Gordon Agnew, in Perth at the time of the ADA Congress.

A charter was presented to the Section 29 Regents Gilbert Henderson and Alan Grainger. An Organizing Committee was elected to attend to the affairs of the new Section until a Board of Regents was elected at the next convocation in 1971. The Organizing Committee comprised:
- Alan Grainger, Chair
- Derek Freeman, Secretary
- George Christensen
- John Lavis
- Gordon Rowell

FIRST SECTION 8 INDUCTION
The first Fellows inducted into Section 8 in 1964 were:
- Ken Adamson
- Neville Cox
- Derek Freeman
- Ross Taylor

Derek Freeman awarded Honorary Life Membership by International President, Don Johnson, 2007
INAUGURAL BOARD OF REGENTS
In 1971 a draft constitution was approved and the inaugural Board of Regents was elected:

- Alan Grainger, President
- A Gordon Rowell, Vice-President
- Richard Setright, Registrar
- John F Lavis, Treasurer
- Derek D Freeman, Regent
- Kenneth J Sutherland, Regent

SECTION 8, "AUSTRALASIA"
In 1973 the listing for Section 8 was amended to include Australia, New Zealand, Papua New Guinea and Fiji. The Section title was changed to "Australasian Section".

1975 LANDMARK INDUCTEES
In 1975 there were a number of notable new Fellows inducted into the Section:

- Elizabeth Fanning and Doreen Musgrave were the first female Fellows inducted into Section 8. In 2014, 15% of Section 8 Fellows are female.
- Sir Asher Joel KBE, FRSA, MLC was the first Honorary Fellow inducted into Section 8. Honorary Fellowship is conferred by the Board for an individual, other than a member of the College and not necessarily a dentist, who has rendered conspicuous service to the cause of dental science, has contributed to the promotion of the dental profession or has otherwise significantly advanced the dental profession. Martin Halas was named as the second Honorary Fellow of Section 8 in 1990. Section 8 currently has four Honorary Fellows: John Harrington (NSW, 1994), Peter Lazar AM (NSW, 2003), Eric Reynolds AO (VIC, 2007) and Laynesh Gebrehiwot (Eritrea, 2014).

REPRESENTING SECTION 8 ON THE INTERNATIONAL COUNCIL
Fellows from our region have contributed to the College at the highest level from the beginning. The inaugural ICD Board of Regents formed in 1928, comprised of 15 members, included Regent William G. McKern of Sydney, Australia. McKern was foundation Vice-President of the ADA NSW, Associate Editor of The Dental Journal of Australia and served on the Dental Board of New South Wales.

Gilbert Henderson (see profile below) and Alan Grainger (see profile on next page) were long serving Regents for Section 29 prior to Australia becoming an autonomous Section. Subsequently, Section 8 has been represented on the International Council by Gordon Rowell (1971-1988), Robert Norton (1988-1995), Syd Dobbin (1995-2001), Geoff Hall (2001-2007) and Clive Ross (since 2007).

**Gilbert D Henderson OBE (1890-1977)**
Gilbert D Henderson was one of the first Australian dentists admitted into the International College of Dentists (8 July 1930) and one of the first Regents for Section 29 (1932). He played an instrumental role in proposing Australia to become an autonomous Section of ICD and organising the official inauguration of Section 8 on 30 May 1964 at the ADA Congress in Perth.

Gilbert was a founding member of the WA branch of the Australian Dental Association in 1922. He was the first chairman of the Perth Dental Hospital in 1926 and of the board of management of the WA College of Dental Science (later the University of WA Faculty of Dental Science) in 1936.

He joined the Australian Army Medical Corps (Dental) in 1942 serving for three years as a specialist, designing mechanical aids for repairing fractured facial bones and prosthetic shields to restore facial soft tissue loss. He was best known for building a prosthetic hand activated by rods inserted in the arm muscles.
ALFRED GORDON ROWELL OBE (1913 - 2007)

With the outbreak of WWII, NSW dentist A Gordon Rowell enlisted in the AIF (Australian Imperial Force) in 1939. He remained in the military rising to the rank of Brigadier and becoming Colonel Commandant of the RAADC (Royal Australian Army Dental Corps). He was highly decorated for his military service.

Following the war, Rowell worked in private dental practice, taught in the University of Sydney Faculty of Dentistry and was active in both the ADA NSW and the federal ADA. As Vice-President of the ADA in 1956 Gordon Rowell led the way in formation of the Australian College of Dental Surgeons and served as Foundation President of the College.

Gordon Rowell played an extraordinary role in the early history of Section 8. He was a member of the original Organizing Committee appointed in 1964 and was elected to the inaugural Board of Regents for Section 8 in 1971. Gordon served on the Section 8 Board until 1988, representing the Section on the International Council for 17 years initially as the Section President and later as the Section "Executive Councilman/International Councillor".

He became a member of the ICD Executive in 1972 and contributed significantly with a review of College finances and revision of the ICD Constitution and By-Laws. In 1978 he became the first Section 8 Fellow to serve as Council President. For his services to the International College, Rowell was honoured with appointment as a Master of ICD.

William Alan Grainger CBE (1906 - 1974)

Prior to Section 8 being authorised as an autonomous Section of ICD, William Alan Grainger served with Gilbert Henderson as one of the first Regents for Section 29 of the International College. When Section 8 was officially inaugurated as an autonomous Section on 30 May 1964 at the ADA Congress in Perth, Grainger became Chair of the Organizing Committee appointed to manage the affairs of the Section until a Board was elected. Alan was the inaugural President of the Section 8 Board of Regents elected in 1971.

Grainger graduated from the University of Sydney Faculty of Dentistry in 1928. Clinically, Grainger distinguished himself as a pioneer in ceramics (the "jacket crown king") in an era well before the technology and materials used today were available to make long lasting aesthetic crowns. For more than thirty years from 1935, he lectured on ceramics to dental students. In 1970 he was awarded the University of Sydney Fairfax Reading Memorial Prize and certificate of merit for special service to the Faculty of Dentistry.

He served as President of the ADA NSW in 1956, Federal President of the ADA 1964 - 1968, President of the Dental Board of NSW 1963 - 1974 and President of the RACDS 1970 - 1972.

Alan was appointed the "Censor-in-Chief" on the ADA Committee formed in 1962 to establish an Australian College of Dental Surgeons. Subsequent representations by Grainer resulted in Queen Elizabeth II granting use of the prefix "Royal" for the College in 1972.

Grainger was awarded a CBE in 1969. He was President-Elect of FDI in 1974 when he passed away.
SERVICE ON THE COUNCIL EXECUTIVE

There have been two Section 8 Fellows to serve as International Presidents, Gordon Rowell in 1978 (see profile on previous page) and Sydenham Dobbin in 2000 (see profile below). In 2010 Clive Ross became the first Section 8 Fellow elected to the position of International Treasurer and the first Fellow from New Zealand to hold an Executive position on the Council. Clive continues to serve as the International Treasurer (see profile on next page).

SYDENHAM DOBBIN AM

Sydenham Dobbin served on the Section 8 Board 1985 - 2001 in positions as Regent, Treasurer, Vice-President, President and International Councillor. In 1998 he was elected as Council Vice-President and subsequently served as Council President-Elect in 1999 and Council President in 2000. He was the second Section 8 Fellow elected as President of the International Council.

Sydenham Dobbin joined the Royal Australian Air Force RAAF at the age of 18 and trained as a pilot. He was shipped to England during WWII where he personally experienced bombings in London. Late in the war Syd flew spitfires.

After the war, Syd studied dentistry graduating in 1950. He joined the newly formed Australian Regular Army and was the first dentist to hold a commission in the Regular Army. When discharged in 1952, he started private practice in Yass, NSW when he continued practicing until 1995.

In 1956 Yass became the first town in New South Wales to be fluoridated due to the leadership of Syd Dobbin and one of the town's medical practitioners, Dr David Graham who was also on Yass Council. Syd joined and served on the Yass Council for thirty years - seven years as Mayor. Yass became known as the "Good Teeth Town" with a 60% reduction in caries in 5 year old children. Syd is considered to be the "Father of Fluoridation" in New South Wales. In recognition of his determined efforts, he was awarded an Order of Australia in 1986 for services to the community, particularly in the field of dental health.

Syd continues his passionate advocacy for water fluoridation as evidenced by an article in the The Daily Telegraph dated 2 September 2013. As quoted in the article, "He helped Australia become a nation proud to flash its pearly whites and 60 years on Dr Syd Dobbin is still fighting for fluoride. Yesterday the retired dentist joined the chorus of experts calling for Northern Rivers councils to adopt fluoridated water, citing 60 years of healthy teeth in his hometown of Yass."

The Daily Telegraph, 2 September 2013, "Father of fluoride Syd Dobbin calls for Northern Rivers councils to save children's teeth by approving fluoridated water"
MASTERS OF SECTION 8
The highest level of membership classification within the College is that of "Master". Masters are Fellows in good standing who at the time of their nomination have rendered extraordinarily conspicuous and outstanding service to the College and are duly approved by the Section and by the College.

The awarding of the status of Master is considered a rare distinction. There have been four Masters appointed in Section 8 during its fifty year history: Gordon Rowell, Richard Setright, Sydenham Dobbin and Geoffrey Hall. Currently, Section 8 has one Master, Sydenham Dobbin AM.

HONORARY LIFE MEMBERS OF SECTION 8
The membership classification of "Honorary Life Member" was introduced by the Section 8 Board in 2006. Honorary Life Members are Active or Retired Fellows in good standing who have made an outstanding contribution to the College and to the profession as determined by the Board of Regents. Section 8 currently has six Honorary Life Members: Sydenham Dobbin AM (NSW), Derek Freeman AM (NSW), Don Heffron CBE (NSW), L Peter Ryan OAM (QLD), Tom Speed (NZ) and Ken Sutherland AM (WA).
Leadership and service are core values of the International College of Dentists. Strategically, the Section 8 Board believes involvement and support for dentally related humanitarian projects and development of future leaders are essential to preserving the relevance of the Section within the dental profession in our region.

Focus on Project Support
The early minutes of Section 8 Board meetings indicate the desire and intent to identify and support projects aimed at improving oral health in underserved communities. Regent Derek Freeman was an early driving force within the Section in this regard. There was particular emphasis on sharing dental knowledge and a particular focus on the South Pacific islands.

The intent to support projects to improve oral health in underserved communities has been a continuous theme throughout the history of Section 8. In the early 2000's the Board sought to place increased emphasis on projects by formalising and promoting the application process for grants amongst Fellows and by raising awareness of projects supported by the Section through the Section newsletters.

In addition, in 2008 the Section annual membership renewal form was modified to encourage Fellows to add an optional donation for project support. This modification served to further emphasise how important support for projects is within the Section.

Over the six years since the form was modified, Fellows have donated more than $50,000 with their renewals. The donations have increased annually from $4000 in 2008 to $11,800 in 2013. Individual donations range from $10 to $1000. In 2013 28% of Fellows included a donation with their renewal.

Support for dental education and community dental care in the South Pacific has remained consistent throughout the history of Section 8. Recent financial support has been provided for projects in Fiji, Tonga and Papua New Guinea. Financial support over the past 5 - 10 years has also been provided for projects in Cambodia, Timor Leste, Indonesia, Nepal and Vietnam. Closer to home, financial support has been provided for dental care in Aboriginal communities, for a community outreach program in Adelaide and for the Australian and New Zealand Dental Research Foundations.
Section 8 Fellows provide leadership for projects financially supported by the Section. In 2014 this included:

- Petrina Bowden (QLD), Cambodia
- Jonathan Cole (NZ), Fiji
- Callum Durward (NZ), Cambodia and Timor Leste
- David Goldsmith (VIC), Fiji and Tonga
- John McIntyre AM (SA), Papual New Guinea
- Sandra Meihubers (NSW), Nepal and Bangladesh
- John Owen AM (WA), Australia
- David Sheen AM (NSW), Timor Leste
- Colin Twelftree OAM (SA), Vietnam

Beyond the projects supported by the Section, many other Section 8 Fellows are involved with volunteer dental projects. They give generously of their skills and knowledge, their time and their personal finances.

Focus on Future Leaders

Future leadership is intrinsically encouraged through Fellowship in the International College of Dentists. The composition of Fellows within Section 8 exemplifies leadership across the breadth of the dental profession in our region.

All Fellows are encouraged to make nominations of deserving candidates. The continued growth of Section VIII is testimony to the commitment to identify dentists who demonstrate leadership in their area of expertise and deserve recognition through ICD Fellowship. Membership statistics show that Section 8 membership has increased by 11% over the past 8 years. This includes the 59 new Fellows being inducted tonight as part of the 50th anniversary celebrations.

Young Leaders

In March 2014 the Section 8 Board held its first strategic planning session. The Board identified development and support for young leaders in our region as a focus for the future. Towards that end, selected young dentists from Australia and New Zealand have been invited to attend a program on Sunday, October 26 to discuss future leadership within the dental profession. The program is being conducted in conjunction with the ADA and the NZDA who have provided support for the young dentists to attend. Members of the International Council and the Section Board will attend the program. Outcomes from the discussion will form part of the Section's strategic plan which will be finalised at the Board meeting in Brisbane in March 2015.

Collaboration for the Future

Development of strategic relations has also been identified by the Board as advantageous for the future of the Section. This will certainly continue with the ADA and the NZDA who have always provided invaluable support for the Section in numerous ways.

Collaboration with the dental industry is also important to the future of ICD. The Council Executive has identified a number of Diamond Sponsors who are providing funding to enhance communications from the Council Office with ICD Fellows throughout the world. In our Region, Henry Schein-Halas is an ICD Diamond Sponsor.
