

International College of Dentists Australasian Section

Newsletter

Issue Number 20, December 2003

President's message

September was a most active period for the College with a successful Convocation and Induction of new Fellows and the hosting of several events for the International Council of the College, that was meeting in Sydney at that time.

The Convocation and Luncheon were extremely well-attended with 225 Fellows and their guests being present. The Convocation was enhanced by the induction of forty Fellows of the Australasian Section and two from the Japan Section of the College. We were also honoured by the presence of the International President, Dr Minoru Horiuchi, the Secretary General, Dr Bob Brady, and members of the International Council. The Immediate Past International President, Dr Vic Lantis, was the guest speaker at the luncheon and delivered what was a most memorable and inspiring address which, hopefully, will encourage all of us to strive for excellence in our future endeavours. We have asked him for a copy of his speech as there have been a number of requests for it. Unfortunately, due to illness, our own President, Dr Neil Henry, was unable to be present but the good news is that he is now well on the road to making a full recovery.

In the four days prior to the Convocation, the Australasian Board hosted a number of events for the visiting International Councillors who were meeting in Sydney. At a Dinner for the Council on 15 September, several Past Presidents of the Australasian Section were invited guests, two of whom – Drs A Gordon Rowell and Syd Dobbin – were also Past Presidents of the International Council. Dr Rowell is, in fact, the most senior living Past International President and was duly honoured at the Dinner. The occasion also offered an opportunity for the presentation of a Past President's plaque to Dr Dobbin.

The Board of Regents of the Australasian Section of the College met on 14 September in Sydney. A number of nominations of New Fellows were considered and those who were approved will be invited to accept Fellowship in the College, with a view to their induction in 2004. The Board will also welcome two new Regents, following the most recent election, Drs Jackie Robinson (NSW) and David Thomson (Qld). Future activities of the College were discussed and it was decided that, whilst continuing to look for opportunities for assistance to Pacific nations, there would be a focus on aid to

East Timor and the indigenous health needs of Australia and New Zealand. Consultations are being progressed with a view to development of proposals for aid in these areas.

In accordance with current practice, it is intended to continue to hold an annual dinner, with the facility to induct new Fellows. In 2004, this event will be conducted in Melbourne at the time of the ADA (Victorian Branch) Convention. Details of this function will be circulated in due course.

Registrar's Report – Oct. 2003

Membership

The Australasian Section remains strong, with a total membership of 473. That total includes 293 active members from Australia, 39 active members from New Zealand, and two from Fiji in the Pacific Islands. Of the total Fellowship, there are 131 Life Members, comprising 109 from Australia and 22 from New Zealand.

Awards

Several Fellows have received national Australian or NZ awards since the last Convocation. Most recently Pat Colgan of WA was honoured with an AM, and David Marshall received the ONZM.

International Meeting – Sydney, September 2003

An International Convocation was held in Sydney on September 17th, just prior to the commencement of the FDI Congress.

The Convocation was preceded by a meeting of the International Council of the College. This took place on Tuesday September 16th plus an early morning session on Wednesday 17th, and was held at the Intercontinental Hotel, Bridge Street. That meeting was conducted by the International President, Dr Minoru Horiuchi from Boston USA. It was attended by the Secretary General, Dr Robert Brady, and international representatives from Korea, Peru, Chile, Holland, Taiwan, UK, Japan, Canada and USA, as well as by our Australasian representative, Dr Geoff Hall AM.

Most of the International delegates arrived in Sydney a few days prior to the meeting, and the Board of Regents of the

President: Rob Butler
Treasurer: Gerald R Dickinson
Regents: Peter Noblet, Jackie Robinson, David Thomson

Past President: Neil Henry AM
International Councillor: Geoffrey C. Hall AM

Vice President: Clive B. Ross CNZM
Editor: Dick Cook AM RFD
Registrar: Braham Pearlman

Australasian Section were hosts at several functions. A dinner was held in the Intercontinental Hotel and several past presidents of the Australasian Section attended, including Dr Gordon Rowell AO CBE ED, a past International president. The Secretary-General of the College, Dr Bob Brady, took the opportunity to present Dr Syd Dobbin AM with his badges of office as a recently retired International President. In response, Syd characteristically gave a short but inspiring address, challenging the assembly with the ideals and aspirations of the ICD.

Past and Future Convocations

Prior to the September Convocation in Sydney, the most recent previous Convocation was held in Auckland, NZ, in September of 2002, concurrent with the Biennial Conference of the NZDA. At that time five new fellows were inducted by the Australasian Section President, Dr Neil Henry AM, assisted by the NZ Regent, Dr Clive Ross CNZM. The Vice-President and Registrar were in attendance.

Future Convocations: The Board is considering plans to hold ICD Convocations during 2004 at two venues. Firstly in Melbourne, in association with the Conference of the ADA Victorian Branch Convention that is scheduled for 6th and 7th August. Subsequently, a Convocation will be held in Christchurch NZ in association with the NZDA Conference which runs from 25th to 28th August.

Aid Grants

The Australasian Section, as a matter of International College of Dentistry policy, concerns itself with support of dental communities of need. A substantial donation was recently made to Tonga through Dr David Goldsmith, for preventive dentistry measures in that country. Under the authority of Dr Jamie Robertson, financial support was granted for the transport of autoclaves to Cambodia. In 2002 a grant was made available to enable dental students of the Dental School in Dunedin NZ to attend the NZDA Conference in Auckland.

Sydney Convocation

In association with the recent FDI Congress held at Darling Harbour, an Australasian Section ICD Convocation was held at the Star City Hotel Ballroom on Wednesday September 17th. This was a massive function, because it included the International ICD representatives and guests. Forty New Fellows from Australia and NZ were inducted into the College. We were delighted to additionally induct two New Fellows from Japan: a large delegation from the Japanese Section of the ICD attended the Convocation and their Executive had requested inclusion of the two New Fellows for induction. Dr Minoru Horiuchi, the current International President, presided and conducted the Induction ceremony. Dr Horiuchi had served in the Japanese Air Force in World War II, and had undergone Kamikaze Pilot training before the war ended and so fortunately survived. He then migrated to the USA where he has had a distinguished dental and community career, having been decorated by the Japanese Government for community service in Japanese-American relations. Min Horiuchi was an impressively humble, charming and capable ambassador of the International Section.

Unfortunately, the President of the Australasian Section, Dr Neil Henry AM, had been struck by a debilitating illness some weeks before the Convocation and was unable to attend. Neil has been a masterly and dedicated president over his term, and it was most regrettable that he could not bring his office to its appropriate culmination by presiding at the Convocation. Dr Rob Butler, the current Vice President ably substituted in Neil's place.

The President's luncheon took place immediately following the Convocation in an adjacent room. Dr Vic Lanctis of Canada, Immediate Past International President, gave the address. He is a renowned orator, and presented a moving and challenging call to service and achievement within the College.

Dr Rob Butler deserves special mention: he shouldered the major responsibility for the organising and conduct of the both the International Meeting and Section Convocation. It was a major meeting, with some 220 people attending the Convocation and President's luncheon. The Star City Hotel Ballroom was an excellent venue, providing an impressive environment for the proceedings. The International Delegates left Sydney having experienced an exciting and individual 'Aussie' meeting, commenting on our unique mix of informality, warmth and dignity.

New Executive

Following the recent election of the Board of Regents, Dr Geoffrey Hall AM, as International Councillor and Past President installed Dr Rob Butler (Vic) as President of the Australasian Section. The Board of Regents for the term 2003 – 2005 consists of Dr Clive Ross CNZM (NZ) Vice-President, Dr Gerry Dickinson (Vic) Treasurer, Dr Geoff Hall AM (SA) International Councillor, Dr Neil Henry AM (Qld) Immediate Past President, Dr Braham Pearlman (NSW) Registrar, Dr Dick Cook AM (WA) Editor, Drs Peter Noblet (SA), Jackie Robinson (NSW) and David Thomson (Qld) Regents.

Braham Pearlman - Registrar

EDITORIAL NOTICE

This 20th issue of the International College of Dentists – Australasian Section Newsletter is the first to be produced in Western Australia following the election as Editor of Dr Dick Cook.

Because of the need to publish this issue before the end of 2003 it is thin on copy, but future issues will contain more material.

The editor welcomes contributions from fellows which can be sent to:-

8th Floor
68 St Georges Tce
PERTH WA 6000 (Hard copy)

INTERNATIONAL COUNCIL MEETING – SYDNEY SEPTEMBER 2003

History was made when the full International Council of the College met in Sydney for the first time in the Australasian Section's forty years of existence. Both the meetings, the environment and the social gatherings were met with enthusiastic approval by President Horiuchi and our overseas guests which made this a memorable occasion.

Following the formation of an Ad Hoc Committee on Communications at the 2002 council meeting and the guidelines since developed, the Council approved the following actions:-

1. Maintain liaison with the Editor if the Globe magazine and the Information Technology Committee.
2. Encourage all Sections to produce regular periodic newsletters and either place them on their College website or send them to the IT committee for placement on the ICD website.
3. Encourage all Sections to identify their projects that serve humanity and the dental profession and to give adequate coverage to their projects.
4. The Committee will monitor the European Section In U efforts to establish a Scientific Editor and Scientific Coordinator to use the internet for continuing education.

It is intended that all ICD web pages should be accessible through the College website at www.icd.org. Through the use of hyperlinks the College website would maintain a compendium of information including an updated world wide calendar of events. With the above aim in mind the issue of multiple languages becomes a focal point and the major challenge involved is obviously the extent to which Council can embark on such a venture and the potential costs that will arise.

The Council through its Growth and Development Committee continues to identify countries that are not participating in College activities and to encourage them to do so.

It may be of interest to Fellows to know that the membership of the College now exceeds 9900 Fellows.

The following will hold office in 2004 -

President	Dr. Ramon Castillo(Peru)
President-Elect	Dr. Lon D.Carroll(USA)
Vice President	Dr. Chan Chao Chang(Taiwan)

The European Section will be holding its annual meeting in Monaco from 10-12 June 2004, and the next international Council Meeting will be held in Orlando, Florida in September, 2004.

Geoff Hall

International Councilman

NEW FELLOWS INDUCTED 17th SEPTEMBER 2003 at the Convocation held before SYDNEY FDI MEETING

Dr Karin J Alexander BDS (Adelaide)

General Practitioner Adelaide SA, Visiting lecturer University of Adelaide & Torrens Valley TAFE Paratental Faculty, ADA (SA Branch) Councillor 1997 to present, President ADA (S Aust Branch) 2001, Member of various committees ADA (SA Branch), ADA (Federal) Councillor 2000 to present, Chair Guild Liaison Group 2001 to present, Member ADA Working party on Professional Indemnity
